No! for Sale in Book or News Stores.

THE ALDINE which issued with all the regularity of a chronometer, and at the end of each month presents to its subscribers a beautiful and entertaining picture, light and graceful in design, tasteful in color, and refined in execution, a collection of pictures, the rarest specimens of artistic skill in black and white, and a miscellany of entertaining matter, which a fresh pleasure to the refined reader and a delight to the cultivated taste. THE ALDINE will be, more appreciated after 1874 than ever before. Commencing with the first number for January, 1874, it will be issued in a new and attractive form, printed on fine tinted paper, with enlarged pages, and with a handsome new cover, designed expressly for it by Mr. Thomas Moran, the eminent artist, whose original pictures have given him a world-wide reputation. Each number will contain a beautiful chromo-lithograph, printed in colors, and mounted on heavy boards, so as to be suitable for framing, without additional cost to the subscriber. These chromos will be varied in character, and will include reproductions of some of the most famous pictures in this country and Europe, as well as original designs, prepared especially for THE ALDINE. The literary matter will be supplied by the best writers, and will be profusely illustrated with fine wood-cuts. The publishers intend that no expense shall be spared to render THE ALDINE the most beautiful publication in the world, and they feel confident that the merit of the work will secure for it a liberal support.

TERMS.

$5 per annum, in advance, with Oil Chromo, free.

For 50 cents extra, the chromo will be sent, mounted, varnished, and prepaid by mail.

THE ALDINE will, hereafter, be obtained only by subscription. Prospectuses will be no longer issued, and sales, cash for subscriptions must be sent to the publishers direct, or handed to the local canvasser, with whom the certificate is given, bearing the autograph signature of JAMES SUTTON & Co.

AMERICAN INDUSTRIES.—To the rapid strides of American inventive genius is to be greatly ascribed our leading position among the great producing nations of the earth.—Where labor in all departments is so well paid, it is necessary to call in improved machinery as an auxiliary in order to compete with the cheap labor of foreign countries.—Without our mowing, reaping and threshing machines, and other improved agricultural implements the vast Western country would be slowly developed and both hemispheres would not realize a large portion of our present immense cereal crops Sewing machines and all mechanic arts, the work of the inventor simplifies the labor of production and multiplies the products of industry many fold The increase in the business of the United States Patent Office within a few years shows the extraordinary agency that is being concentrated upon the elimination of ideas that shall meet the public want with articles of use and ornament at prices within the reach of all

Inventors often fail of securing a patent for really valuable arts through executing too little care in the select ion of a solicitor to transact their business with the Patent Office, and may have put too much confidence or pinned their success to secure letters patent for articles of no sight, or of no patentable merit their nature or merely exaggerations of something heretofore patented Mr R H Eddy of Boston whose card appears in our paper today is thoroughly conversant with all these difficulties necessary to secure a full protection to the inventor and has had a success for more than 15 years with his clients in the consummation of all business entrusted to his care Inventors will do well to consult him personally or by letter, as his charges are moderate and his success proverbial Circulars containing full information sent free on receipt of stamp

THURSDAY JAN 1 1874

ANOTHER YEAR

Time rolls on and ere the last stroke of the last hour of 1873 has ceased to vibrate among the chords of memory we find ourselves already on the threshold of a New Year, looking and pressing forward to what lies beyond The great march of life flows no rest save at the final halt and the rapid whirl of events does not permit us to linger long among the graves of the past. The past has its cherished associations its clinging memories, its lessons and its warnings for us all but these we must carry forward with us as we go to meet new duties and work out new problems of destiny We cannot force back the hand upon the dial we cannot turn our faces steadily toward that which lies behind, but gathering up such treasures and tokens as we may our feet must press onward in the path that stretches between this life and the life to come. It is a blessed dispensation that our sorrow and regret for the times that are past are broken in upon and diverted by the hope and promise of the future as the solemn tolling for the months that are fled gives place to the cheery peals of welcome to the Happy New Year

The year that has just closed was even as are those which preceded it and as will be those which are to come. It is needless now to review the events that make up its history for they have been chronicled from day to day as they took place and familiar with the record There are the usual alternations of light and shade of good and evil of enterprise and matter of life and death The record of the year embraces such distinguished names as that of Samuel Chas Chief Justice and Associate Justice Nelson of the U S Supreme Court Hon J L Orr U S Minister to Russia Louis Agassiz the great naturalist and scientific philosopher John P Hale and Lewis Tappan two pioneers of anti slavery reform Horace Greeley of Pennsylvania Bishops McIlvaine Randall and Armitage Admiral Winslow the hero of the Kearsarge Gen Canby the victim of Modoc treachery Commodores Aulick Maury and Jamieson of the Navy Hiram Powers the famous American sculptor and numerous others whose memories will long be cherished In foreign lands the list embraces the names of ex Emperor Napoleon who died in exile Abdel Kader, the famed Arab chief restored to liberty by Napoleon Sir Henry Holland and Augustus Norton leaders of the medical profession in England and France Justus Liebig the renowned agricultural chemist Landseer, the famous painter King John of Saxony, Louise Mühlbach Bulwer Lytton and Charles Knight, distinguished author John Stuart Mill, the noted logician and philosopher Dr Guthrie the eminent Scotch divine and others who held prominent place in their respective generations

Without going into details we may briefly recall as among the prominent features of the record of 1873 the Vienna Exposition with the visits to the Court of Italy and the Emperor of Germany the controversy between the German Government and the Church of Rome the restoration of Thiers to the Presidency of the French Republic the downfall and exile of Marshal Bazaine the peace between Russia and Khiva the war between Spain and the Alphonsine the proclaiming of independence to Egypt the accession of Castelar to the Presidency of the Spanish Republic the defeat of Gambetta in England and his subsequent return to office the negotiation of a treaty for the suppression of the African slave trade the prospect of a famine in Bengal the payment of the Geneva Award and the unfortunate progress of the Tichborne trial

Of transactions of the Atlantic ocean we will but refer to the Credit Mobilier sensation the second inauguration of President Grant the extraordinary struggle with the Modocs and the treacherous murder of the savage assassins the ravages of the yellow fever at the South the outbreak of the MacDonald Ministry in Canada the consequence of refusing concessions to the Fenian raid way scheme the opening of a railroad through the Rocky Mountains the disastrous financial panic which threatened general disaster wrecked the colossal enterprise of Jay Cooke & Co compelled the great house of Seligman & Co of Rhode Island to suspend and for a time paralyzed the industries of the country and finally the Virginius controversy which nearly involved us in a war with Spain but which through wise counsels has been peacefully and at last honorably settled

The terrible disasters at Long Island and the wreck of the steamships Atlantic and Ville du Havre stand out in ghastly prominence on the record of the year and the latter event is still fresh in the minds of all

But we must not dwell longer on the past the horror of life that was utterly drooping in the first grasp of 1873 has been raised by the warm hands of the young New Year, and now flaunting bravely to the January breezes beckons us forward to a hopeful future Some of the shadows which have darkened the last few months have already passed away the sunlight of promise is showing a silver lining along the clouds that still hover over us and the year opens bright or in all respects than we recently dared to hope We have escaped the horrors of war the financial troubles have proved far less serious than was feared the hum of industry is reviving throughout the land in our own State we are witnessing the restoration of our great ship-building interests, our land is blessed with abundance of food we are at peace with all the world signs of improvement are witnessed in all branches of business the coming twelve months will bring us prosperity if we diligently seek it and we close with the wish that they may prove to the world to our country, and to one and all, the successive instalments of A HAPPY NEW YEAR.

General Cushing is making preparations to start for Madrid immediately after his nomination has been confirmed by the Senate There are delicate diplomatic questions connected with our imperative demand for the Virginius to be adjusted, and it is understood that Mr Cushing hopes to secure the abolition of slavery in Cuba and the establishment of a local Government there which will enter into friendly political and commercial relations with the United States. The General's known hostility to filibusterism will enable him to do much that General Sickles could never have accomplished.

The Fall River *News* says that on Monday all the mills and the American Print Works resumed running on full time, instead of three fourths. Business is gradually improving and everything now looks as if the coming year were to be a busy and prosperous one.

A Washington despatch to the Boston *Post* says that senator Edmunds intends to devote as much of his time as possible during the recess to a thorough consideration of the bankrupt law, and in conjunction with Senator Thurman, purposes framing a bill by the time Congress reconvenes, which, if is expected, will give general satisfaction, and which will in all probability, receive favorable action by Congress.

THE PUBLIC PRINTING The assertion that the public printing has of late cost about two million dollars per annum the greater part of which was for public documents which have gone through the mails free, is far from being correct. The printing and binding for Congress during the past year cost $871 998 27, while that for the executive department cost $1 210,239 77 The cost of extra copies of public documents published during the past year for free distribution was $643,391 12, of which $186,761 84 was for the census of 1870 a publication which is only made once in ten years, leaving a cost of $ 643 042 28 for all the other documents distributed This is but a trifle over twenty per cent of that amount.

The Coroner's jury on the Kennebunk disaster find in their verdict that the collision was occasioned by a concurrence of the negligence and incompetency of assistant train despatcher, Henry B Wing, gross error in judgement of Henry L White, night operator at Kennebunk station, and the culpable recklessness of both Charles F Pattee conductor and Wallace W Morrison engineer of down freight

THE RESIGNATION OF MINISTER SICKLES The following telegraphic correspondence passed between Secretary Fish and Minister Sickles concerning the resignation of the latter

MADRID Dec 6

Hon Hamilton Fish Secretary of State Washington —It is published semi officially that the Government disapproves of my conduct in the case of the Virginius If in the opinion of the President my resignation would facilitate a satisfactory termination of that affair or if otherwise advantageous to the public interests such resignation may be considered as hereby respectfully tendered

SICKLES

WASHINGTON Dec 6

Hon Wm H Sickles Madrid —The alleged publication in the disapproval of your conduct is entirely unauthorized No dissatisfaction has been expressed or intimated and it is deemed important that your resignation at this time would not be accepted as would interfere with the pleasure of an accommodation

THE SINKING OF THE VIRGINIUS The following is the official report of Lieut D C Woodrow who was in charge of the Virginius — When he took command the 17th inst Tortugas she was taking forward had to trim her ashes after fires room and bilge was very dry On the 18th in the morning the water was up to the grate and four feet of water in the forward and two and a half feet in the after compartment The fires were again started in the afternoon Early next morning the 19th went to clean out tow of the Oriente As the sea rose she caused very quick and all heavy weights including two pumps which were thrown overboard and the coal was shifted to the bottom of the forward coal bunkers There were eight feet of water in the hold the pumps had been constantly breaking down and the men were worn out. On the 19th early in the morning one of the boilers gave out and the others were not safe and at the low pressure of five pounds another gave out in the afternoon On the 20th in trying to keep up the steam on two engines not working the water gaining in the hold so much that we could not keep the fires out and at 4 P M with signalled the Oriente to take them off this forward compartment being then full of water the water never began to burn in the fire rooms and set very rough A gale was blowing and all hands were transferred to the Oriente At 4 P M on the 20th the Virginius went down bows first in fathoms of water her crew and passengers were taken off by the Oriente and Wood owns report of the Virginius to the owners, engineers and supply confirms his report.

The officers of the Virginius were English Cuban and Americans generally

The Boston *Globe* says Governor Perham and his associates in office are winding up affairs of their three years' administration of the Government of Maine and will show as clean a record as can be presented in any State of the Union Their successors can find little ground for hostile criticisms, and Governor Dingley will be able to present to his message to the coming Legislature a very clear statement of the condition of the Free State In the three years the public debt has been reduced $ 600 000 and the annual interest account down $50 000 The sinking fund interest has started into new life and promises to regain its old prestige The Swedish colony in Aroostook County has become self supporting and forms a nucleus for the development of the riches of that vast wilderness A system of free High Schools has been established, and the plan of public education otherwise improved means of transportation have been enlarged and improved, and the industrial interests generally have been greatly developed And above all there have been no defalcations in office and no evidences of corruption in high places

The Application of Steam Power to Dentistry.

And in making this announcement I desire, also to put into record as a matter of fact that I am the first operator in the world who has put into practical use steam power in dentistry. For the past two months I have used it daily in every operation I have performed and even successfully timid patients are delighted and charmed with the ease and absolute *perfection* with which it performs its labor Out of the many who have had operations performed in this way, I have not been able to find a *single one* who has expressed a preference for the old hand methods, but upon the contrary each one has been marked and profuse in their praise of this the latest application of steam power to which it might be said in its commendation, but the limits of an advertisement forbid, suffice it to say realizing the facts fully, that were I to recommend anything in my practice which did not meet the approval of my patients it would be absolutely *fatal* to me, for you, to Dentists, I believe this to be the wishes of all my patients, as well as myself, that I am engaged in giving it a *hearty* and *emphatic* indorsement as the nearest approach to perfection which can possibly be imagined. The expense of it is not to be beyond all comparison Having understood that a certain *interested party* in this city is crying out "danger from explosion" to his patrons, I desire to call attention to the following card from Mr Sniffen, praising it with the remark that I never desire to use over thirty pounds steam pressure which every patient can see *by the gauge for themselves*. After reading this card, let all such parties forever hold their peace. Since it will be seen that the boiler has been constructed to carry *three hundred* pounds pressure per square inch, whereas I use but 30—*thirty*.

Yours truly FREDERICK HANCOCK, D.D.S.

Dentist and Practitioner of Oral Surgery, Nos. 2, 3, 4, 5 and 6, Kenduskeag Block, Bangor, Me.

CARD.

This is to certify that I, Daniel Sullivan of Bangor, Steam Boiler Manufacturer, have just completed, to the order of Dr. J. F. Babcock, one of my patent upright Tubular Boilers, built and made with the special intent and purpose of having it so *exceedingly safe* and strong as to stand under ordinary every day usage, if required 500 pounds pressure per square inch, and I hereby certify that its actual strength is such as to *safely* stand a much greater pressure, if necessary, than the said 500 pounds per square inch.

(Signed) DANIEL SULLIVAN.

FROM AUGUSTA

MATTERS AT THE CAPITAL.

AUGUSTA, Dec. 31.

Speaker Blaine left for Washington to-day.

A Committee of the Executive Council visited the Insane Hospital this afternoon.

The Trustees of the Insane Hospital convened in session. The reports of the Superintendent and Chaplain were submitted to the Trustees but no action has been taken upon them. The resignation of the Treasurer, Captain Leighton, has been accepted. His successor has not yet been named and probably will not be at this session.

The Trustees will most likely adjourn to-morrow or two weeks to await the completion of the report of the Steward and Treasurer

PARDONS.

Governor Perham to day granted two pardons to State Prison convicts. The names are withheld until the documents are placed in the hands of Warden Rice. W.

[To Associated Press.]

THE NEW HOSPITAL.

The Committee on a new Hospital had the first meeting to day. Mr. Fasset of Portland presented plans for a centre building and two pavilions, on the pavilion plan which combines both the cottage and close system. Messrs. W P. Whitehouse and J G Coburn will recommend this plan and the appropriation of money to erect these buildings. Mr. Hebburn will probably make a minority report recommending the building of cottages on the Hospital grounds.

FROM PORTLAND.

SUDDEN DEATH.

PORTLAND, Dec. 31.

This evening Mr. Caleb R. Dunnells, of Newfield, a well-known stage driver, 55 years old, dropped dead in the office of the United States Hotel, of heart disease.

DOMESTIC NEWS.

NEW YORK CITY.

THE VIRGINIUS CASE.

NEW YORK, Dec. 31. The U. S. District Attorney says that no further proceedings will be taken in the case of the Virginius. It is not likely the vessel will ever be raised, and it is deemed requisite that the vessel should be produced before she could be libelled.

Government officers say that whatever may have been the relation of Mr Patterson and the Virginius at the time of her register, there is abundant proof that he was not the owner at the time of her capture.

WHAT THE COMMANDER OF THE OSSIPEE SAYS ABOUT THE VIRGINIUS.

A reporter who visited the Navy Yard this afternoon, while engaged in conversation with Rear Admiral Rowan's secretary, ventured to remark that many people seemed to be of the opin on that the Virginius was sunk on purpose, as the best means of settling the trouble between Spain and the United States. A gentleman dressed in naval uniform said, "That is not so, sir; the Virginius sank from stress of weather. Such reports are untrue I am Commander of the Ossipee. We endangered the lives of the Virginius' officers and crew trying to keep her afloat. The vessel was unseaworthy and altogether out of repair." He also remarked that the accounts so far published in the newspapers were correct, and that the Virginius had gone down through no fault of those on board.

THE CORONERS.

The report of the Supervisors of Brooklyn relative to the charges against Coroners, says that the investigation has failed to establish any charges of fraud. The Coroners' method of doing business, however, was criticised.

THE MONTHLY COAL SALE.

The regular monthly sale of Scranton coal took place to day. The attendance was large and the bidding very spirited, 70,000 tons being sold, as follows:

Steamboat, 5,000 tons, at $4 80; grate, 14,000 tons, at $4 85@$4 90; egg, 10,000 tons, at $5 15; $5 20. stove, 25,000 tons, at $5 25@$5 30; chestnut, 10,000 tons, at $4 20@$4 25.

GRAHAM FOUND GUILTY.

The trial of ex-Senator Wm. M. Graham, charged with a misappropriation of some $90,000 in funds of the Wallkill National Bank, of which he was President, was concluded to-day. The defence called no witnesses, and the Court directed the jury to bring in a verdict of guilty on the evidence produced, which they did. The accused was then remanded for sentence.

THE SAVINGS BANKS

officers say that their receipts are twice as large this year as last, notwithstanding the depression of business.

MAN MISSING.

To day a gentleman called on Inspector Delk at the Central Office, and stated that Samuel A. Goodmab, a woolen manufacturer, of Pawtucket, R. I., had been missing since the 27th inst., on which date he left his house on a business visit to New York.

ANXIETY FOR THE SAFETY OF THE FRANKLIN.

The report telegraphed here from Boston, that the frigate Franklin was in trouble at sea, causes considerable uneasiness in Naval circles. There is nothing known, apparently, here or other

SCHOONER DISMASTED.

The schooner Tampico, of St. John, N. B., which sailed from Saugua Dec. 17 for Portland, was dismasted and rendered unmanageable in the gale of the 25th and 26th inst., and the crew were taken off by the bark Edith Rosa and brought to this port.

VARIOUS MATTERS.

The weather is pleasant here, to-day.

Affairs at the Navy Yard, to-day, were rather active.

A gallows is being erected in Jersey City, on which to hang Mechella, next week.

To-night a "liberty crew" were permitted 24 hours' leave of absence from the Juniata.

The Ossipee and Juniata remain until orders to the contrary are received from Washington.

The notorious Johnny the Greek was to-day sent to the State Prison for five years, for picking pockets.

Most of the released prisoners of the Virginius attended the funeral of Commander Braine's son, to-day.

It is generally believed that some 300 men will be discharged from the Navy Yard at the end of the week.

The Grand Jury to-day found indictments against Wm. Conkling, Chas. Lyons and Thomas E. Smith, Assistant Deputy Sheriffs, accused of robbing Burr S. Craft of of $15,000 in gold certificates.

Wm. Robinson was arrested to-day, charged with using the mails in swindling transactions by circulars purporting to be the firm of J. Wright & Co., agents for the 20-dollar Geneva watch. The swindle is of the same stamp as those exposed some time since.

WASHINGTON.

THE FRAUDS IN ARKANSAS.

NEW YORK, Dec. 31. A Washington despatch to the Tribune says that three separate reports made to the Department of Justice by officers and detectives sent to investigate affairs, show that in the Western District a series of glaring frauds have been committed on the Government by Marshals of that Department in the matter of fees, mileage, &c., and that William A. Britton, U. S. Marshal, had serving under him,

ONE HUNDRED AND FORTY DEPUTY MARSHALS,

derived their support from the fees that they could collect, and that as it was their interest to make all cases possible, they were allowed to roam over the country at will, manufacturing cases; that "one-third" of all the fees obtained were retained by the Chief Marshal, besides 10 per cent. upon all gross receipts from fees, which Britton claimed he kept for a contingent fund. For the remainder he has issued checks in the form of due bills which could not be cashed for more than fifty cents on a dollar.

OTHER OFFICIALS IMPLICATED.

These were bought up by Postmaster Scott and Judge Story, the United States District Judge, at a discount of fifty per cent. Additional frauds are charged in the reports and it is claimed that a ring has existed at Fort Smith for carrying them out, consisting of the Marshal, U. S. Commissioner Brooks, Postmaster Scott, the Marshal's clerk, the editor of the Patriot, and others. It is further claimed that Sarber, Britton's successor, is no better than he was.

THE REVENUES INCREASING.

WASHINGTON, Dec. 31. The receipts of Internal Revenue to-day were $284,779; total for December, $8,012,083; which is an increase of more than $150,000 over the receipts of November. The total since the beginning of the fiscal year is $47,899,474. The Secretary of the Treasury speaks more hopefully than heretofore of the condition of the National Treasury, and expresses the belief that with the continued increase in the amount of receipts and the large reduction in the public expenditures, the necessity for additional taxation may be lessened.

TREASURY STATISTICS.

The U. S. Currency outstanding this date: Old demand notes, $70,637,050; legal tender notes, new issue, $60,810,841; legal tender notes, series of 1869, $308,569,808; one year notes of 1863, $81,005; two years notes of 1863, $24,700, two years coupon notes of 1863, $61,100, compound interest notes $450,280; fractional currency, first issue, $4,343,692 41; second issue, $3,161,499 83; third issue, $3,386,401 45, fourth issue, first series, $20,752,663 48; second series, $7,123,814 25; third series, $9,776,599. Total, $627,619,806 00

FROM BOSTON.

ADVERSE REPORT ON THE P. O. EXTENSION.

BOSTON, Dec. 31. A Washington special to the Advertiser says: It is expected that the Congressional Committee appointed to visit the site of the new Post Office in this city with reference to the proposed extension, will present an adverse report on account of the great expense which the extension will involve. If Congress takes the land, it will take nearly half a million more than what has been already appropriated to pay for the land. It seems likely that the act will be repealed and that the Committee will favor stopping the proceedings and returning to the Treasury the $500,000 appropriated last winter to buy the land and the $200,000 appropriated to begin the extension of the building, if it can be done without a breach of the public faith.

THE MASS. STATE TEMPERANCE ALLIANCE at its monthly meeting to day, adopted the following:—

Resolved, That the honor of the State, the safety of the people, the good name of the Capital and that respect for law which is the basis of all good government, demand that the control of the police of Boston shall be taken from the hands of the Mayor and Aldermen and vested in the State. A committee of five was appointed to apply for legislative action in the matter.

OBIT.

Dr. Anson P. Hooker of Cambridge, Colonel and Assistant Surgeon General on the Staff of Gov. Washburn, died to day. He was out and attending to his patients the day before Christmas. His disease was lung and typhoid fever.

RAILROAD LEASED.

The full vote by which the Fitchburg railroad corporation agreed to lease the Vermont & Massachusetts Road, at the meeting to-day, was 21,711 for the lease, to 52 against.

OTHER MATTERS.

In pursuance of orders from Washington, a large number of workmen at Charlestown Navy Yard were discharged to-night.

Judge Aldrich of the Superior Court to-day, sentenced Jno. Slattery a notorious burglar, to 10 years in the State Prison.

At a meeting of the Executive Council to day, the appointment of Geo. B Richmond, of New Bedford, on the Board of State Commissioners was confirmed.

The location for the proposed new State Lunatic Hospital at Danvers and State Prison at Concord, have been favorably reported up on by a committee of the Board of Health.

THE RAILROAD STRIKES

A COMPROMISE.

NEW YORK, Dec. 31. A delegation of locomotive engineers from Jersey City waited on the General Superintendent of the Pennsylvania Railroad, to inquire about the proposed reduction of wages by the company. Being assured that the reduction was only temporary, the engineers stated that there would be no strike. It is generally conceded that in this way a compromise will be effected between the engineers and the company.

STRIKE ENDED.

PITTSBURG, Pa., Dec. 31. The engineers' strike on the Pittsburg, Fort Wayne & Chicago and Cleveland & Pittsburg Railways is over. The men went to work under the reduction this morning, and all the passenger and freight trains on these roads are running regularly. On the Pittsburg, Cincinnati & St. Louis Railway passenger trains are running regularly, and a few local freight trains. The strike on this line is considered over. The reduction of ten per cent will also take effect on the Pennsylvania Central and Alleghany Valley Railways on Jan. 1st.

EXCITEMENT DYING OUT.

COLUMBUS, O., Dec. 31. The excitement among the citizens about the engineers' strike is gradually dying out as the railroad authorities are demonstrating their ability to get a sufficient number of engineers to run the regular trains. To day all regular passenger trains got away on time, and two freight trains left for the West this afternoon.

There is a guard of police at the freight yards to see that no trouble occurs. General Superintendent Caldwell has issued an order to all engineers and firemen not on duty to report to the office of the Master Mechanic to receive time certificates, to be presented to the Paymaster to be cashed.

FIRES.

IN BRIDGEPORT, CONN.

BRIDGEPORT, Ct., Dec. 31. Hotchkiss & Sons, hardware factory, situated in the southern part of the city, was destroyed by fire this evening. The main building was upwards of 100 feet long and three stories high. It was recently completed and was to be set in operation on Monday next. Loss heavy Insurance, $100,000.

IN NEW YORK.

NEW YORK, Dec. 31. Six small, two story frame houses, in Amesburgh, were burned this morning. Loss about $10,000. Several families were turned out in the cold.

MARINE DISASTER

FOUR LIVES LOST.

NORFOLK, Va., Dec. 31. The schooner Charles Cook, of Boston from Demerara, laden with guano, sprung aleak and run ashore 20 miles south of Cape Henry light, yesterday morning. Four of the crew were drowned while attempting to reach the shore in small boats. Wreckers have gone to the wreck with a tug.

MICHIGAN.

A CRASH AT THE STATE PRISON.

DETROIT, Dec. 31. The centre portion of the building at the State Prison, Jackson, Mich., fell yesterday. The building was three stories high, and had been used formerly as a tannery, but at present was occupied by a cigar contractor named Hollingsworth. There were only three men in the building at the time of the accident, 150 men having just left. The lower story had been used as a dining room until Monday last. The building was badly built, having no solid support, and was condemned four months ago. Hollingsworth lost half a million cigars and a large quantity of tobacco.

FROM CHICAGO.

A GENERAL STRIKE OF ENGINEERS EXPECTED.

CHICAGO, Dec. 31. There are rumors of a strike of the locomotive engineers on nearly all the roads centreing here to morrow or next day, unless the various companies decide to restore the former rates of pay which some of them it is thought will do.

PENNSYLVANIA.

THE COAL TRADE.

PHILADELPHIA, Dec. 31. A meeting of the committee from the Anthracite Board of Trade and the Executive Committee of the Miners and Laborers' Benevolent Union was held in this city to arrange a basis of wages for the ensuing year. The miners wished the rates to remain as at present, namely on the $2.50 basis. The operators declined this offer and demand a reduction. The meeting adjourned to convene in Pottsville on the 8th of January. The miners agreed to continue work at the present rates until a new basis is agreed upon.

CHEERING REPORT FROM THE MINING REGION.

NEW YORK, Dec. 31. A despatch from the mining region of Lehigh Valley, Pa., states that three-fourths of the coal, iron, slate and zinc mines are in operation on full or reduced time and wages. Hundreds of persons recently unemployed are now at work. There is a fair prospect for a general resumption of all suspended industries during next month. Operators and colliers are working together harmoniously.

CRIMINAL RECORD.

ASSASSINATION.

NEW YORK, Dec. 31. A despatch from Chicago says two brothers named Hopper quarrelled with Solomon Silkwood and Wm. Husan, Christmas day, at Carolton, Monday night, the Hoppers visited Silkwood and Husan at their home in Walkerville, and finding the two men in the road shot at them killing Husan and dangerously wounding Silkwood. The desperadoes were arrested.

HOUSE PLUNDERED BY MASKED BURGLARS.

The residence of W. A. K. Sotter at New Brighton, Staten Island, was entered, last night, by twelve masked men who overpowered and bound the man left in charge of the premises, and then proceeded to rob the place at their leisure. They blew open the safe, plundered it of silver ware, and carried off such valuables as were easily removed. They also broke open the stable from which they took a few articles. The family had come to the city for the winter. There is no clue to the burglars.

INCENDIARIES.

Geo. Drastella and Edward Madlinger, merchant tailors on east 12th street have been arrested charged with firing the building in which their store was. The damage to the building was slight.

MURDER FOR $55.

PHILADELPHIA, Dec. 31. Godfrey Kunkle, a German baker on Frankfort road, was murdered this morning in a baker house by a young German in his employ. The murderer robbed the house of $55 and attempted to kill Kunkle's wife in her bed. He then fled but was captured by the police in a neighboring lager beer saloon.

PACIFIC COAST.

THE RAILROAD QUESTION.

SAN FRANCISCO, CAL., Dec 30. The Committee of the Chamber of Commerce, appointed to consider the question of the regulation of Railroad fares and freights, by Legislative enactment, recommend the creation of a board of Transportation Commissioners, a railroad police, and the passage of an act to prevent the extortion, and an unjust discrimination by railroad companies.

OTHER MATTERS.

The excitement in mining stocks increases and there is a general advance in prices.

A heavy rain storm prevails through a greater portion of the State.

Small pox is steadily increasing in this city and scarlatina is very prevalent and fatal.

MASSACHUSETTS.

EXTENSIVE FIRE IN LOWELL.

LOWELL, Dec. 31. At 3 o'clock this morning fire was discovered in the second story of the building occupied by the Lowell Card Co., on Middle street. The building is owned by Wm. Lansley, and was not badly damaged; insured for $3,000 in the Lowell Mutual. The lower story was occupied by Jeremiah Clark for the storage of machinery which was damaged by water. Owing to the delicate nature of the Card Co.'s machinery and the large amount of stock liable to great damage by fire or water this loss is large, being estimated on machinery, tools and stock at $30,000; insured for $25,000. The Company had a new factory building completed and were about to remove. The works were run last night to 8 o'clock using for the purpose a portable engine where the fire originated.

RHODE ISLAND.

IN BANKRUPTCY.

PROVIDENCE, Dec 31. In course of the argument in the U. S. Circuit Court to-day in the case in which the Atlantic Bolaine Co. is party the counsel of that company announced that it would at once go into voluntary bankruptcy.

THE WEATHER.

WAR DEPARTMENT,
OFFICE OF THE CHIEF SIGNAL OFFICER,
WASHINGTON, Dec. 31—1 P. M.

PROBABILITIES.

For New England and the Middle States, increasing cloudiness, with slight change in the temperature, and light to fresh southeasterly to southwesterly winds.

THE VOSE DE CUBA ON [illegible]

THE VIRGIN[illegible]

The Voss says a telegram [illegible] the loss of the Virginius. W[illegible] anything else from the Amer[illegible] ment. It has acted with the Virginius the same as it did with the Fi[illegible] to be compelled to return [illegible] Brazil. Such nobility co[illegible] course of those who are [illegible] Cuban assassins and incendiaries [illegible] enterprise.

This will not exempt them [illegible] paying the full value of the Virginius, [illegible] the prize of the Tornado, [illegible] from giving ample satisfaction and paying [illegible] damages to Spain for the gross [illegible] which America has inflicted in breaking [illegible] treaty stipulations so sedulously, in permitting the [illegible] ment of men after such men had been advertised before hand and [illegible] meeting such men when once out of the country with their flag and vessels of war upon the high seas and in foreign ports, thereby making themselves the accomplices of such [illegible] incendiaries.

If the weakness or fickleness of Castelar, not of Spain, delivered to them the Virginius, in bad faith of the American Government buried the pirate ship in the bottom of the sea, as it did the coal barge Upland at the mouth of the dry dock in Brooklyn Navy Yard to prevent the departure of the Arapiles which they feared so much.

With such deeds they will gain everything except honor, and will transmit to the pages of history that which, instead of being their glory, will cause their descendants to blush for having had such illustrious ancestors. It is useless to try to gather pears from elms. What Grant, Sickles and the rest of the crew can produce has already been fully demonstrated. For the great wrongs of the Spanish nation terrible atonements are required, and their hour will come.

THE DIARIO CONTINUES THE STRAIN.

The Diario says that Punic faith and American justice will appear closely united in history, enjoying the same unenviable celebrity. Punic faith was severely condemned by all ancient people. American justice will merit the same of iniquity among moderns.

The Diario referring to the liberation of the Virginius prisoners, says the word infamy rises to our lips as applicable to the conduct of American Government officials. The liberation of these pirates makes it appear as though they were innocent. We can only answer that American justice is iniquity and perfidy.

This judgment is a bloody farce committed against Spain before the eyes of humanity. When an American war vessel took a Confederate cruiser from Brazil the act was declared a violation of the rights of the latter Government, and the return of the cruiser ordered, and the Americans sunk her to avoid complying with the duty of returning her. We were told that Spain insisted upon the return of the Virginius and we learn of her loss.

We believe that the motives of the United States for its action towards Spain are the same as towards Brazil. We believe, and cannot do less than call, the act a low fraud.

The Madrid Government was fully justified in its demand for the return of the steamer and prisoners, and it is now their unavoidable duty to demand the delivery of the latter, turn them over to their captors, and demand full satisfaction for the fraud employed.

Weakness made us ridiculous and only firmness can place us in the position that befits us. Spaniards in Cuba protest against such iniquitous manœuvres. In an interview with the Captain General the latter stated that the newspapers give their own opinions. The Government neither inspires nor is responsible for articles they print.

GERMANY.

LENGTH OF DAY	9 09		10 15 PM

—The proprietors of the boot and shoe stores of this city have joined the early closing movement and will from Jan. 1 to March 1, close their establishments at 7 P. M. except on Saturdays.

—A despatch from Newport, R. I., states that the captain of the schooner Lizzie Heyer, just arrived at that port from Saltilla, reports that on the 23d ult. Nelson Robinson, of Friendship in this State, fell overboard and was drowned.

—The Somerset railroad bridge at Norridgewock is so far advanced towards completion that the false bridge will be removed within a few days, to relieve the structure from damage from ice or a freshet. Work will then be suspended until Spring.

—The Carrier Boys, who have been so faithfully, "through storm and shine," served our city patrons during the year just closed, will present this morning their "New Year's Address," which, as usual, is gotten up in elaborate style and is well worth reading.

—Our correspondent writes that Judge Howe of Norridgewock has so far recovered from the injuries he recently received by being jammed between two cars, as to be dressed and walk about his room. His recovery has been greatly aided by his courage. He expresses the opinion that he would not have been injured at all if he "had only had a little more room."

—The Hibernian Dramatic Association of this city will produce at Oldtown town hall this evening, the beautiful pastoral drama "Dora," which they have performed in this city with great success. The performance will be followed by a social dance. Andrews' orchestra furnishing the music. The Queen City Dramatic Association will attend the entertainment by invitation of the Hibernian Club.

SURPRISE PARTY. A large number of the parishioners and friends of the Rev. E. Goodenough, pastor of the Universalist church in this city, called at his residence on Ellis st. last evening, and very agreeably surprised him by the gift of $165 in greenbacks. The company passed a very pleasant evening and separated at quite a late hour, wishing the reverend gentleman a Happy New Year.

SHORE LINE RAILROAD. The Directors of the Shore Line Railroad Company have accepted Capt. Buckland's report of his survey of the proposed route, and will have it printed. The Machias *Union* says that reports as to aid in building the road are very favorable indeed, and the Directors feel encouraged that at an early day a union of forces and capital will be made that will insure the road.

A LOCAL REMINISCENCE. An effective correspondent writes us that forty eight years ago to-day, Rev. Harvey Loomis, then pastor of the First Parish church in this city, was about to announce from his pulpit the text "This year thou shalt surely die," when he fell and shortly after expired. He was ordained as pastor of the church in 1811 and occupied the desk in the court room until a meeting house was completed in 1822 on the site now occupied by the brick church of the First Parish.

COULDN'T "SEE" IT. Prof. Haynes, of three-card monte fame, caught a Tartar on the Grand Trunk the other day. The stranger found those four kings in his sucker hand, and was quite eager to bet. Of course the Professor had the four aces. The two men kept "raising," until Hayden had his last dollar on the board. Then the "green one" arose and slapped down a pocket-book containing $900. The Professor went through the train, showing his hand, and endeavoring to borrow, so as to get a "stake" for his money. No one would lend to him, and after a time the stranger raked in the $200 on the board, smiled benevolently, and got off at the next station.

MASONIC INSTALLATIONS. The following officers of Rising Virtue Lodge, No. 10, F. and A. M., were elected on Tuesday evening and subsequently installed by W. Samuel Bradford, assisted by Grand Marshal Charles H. Collamore —Josiah S. Ricker, W. M.; John H. Kerr, S. W.; Clarence L. Dakin, J. W.; Gilbert L. Leighton, Treas.; Charles H. Collamore, Sec; Wm. H. Thompson, S. D.; Benj. W. Guptil, J. D.; Howard S. Nason, S. S.; Charles York, J. S.; Edwin S. Thompson, Mar.; Rev. C. G. Porter, Chaplain.

The officers of Lebanon Lodge, F. and A. M., of Norridgewock, were installed on Saturday evening last by W. R. G. Estes of Skowhegan, D. D. G. M., as follows:—Truman Sawyer, W. M., Chas. A. Whiting, S. W., A. H. Conant, J. W.; R. Hussey, Treas.; E. C. Hale, Sec'y; M. Gould, S. D., M. Thompson, J. D.; J. S. Doyen, S. S.; J. C. Walton, J. S.; Dan Shorey, Tyler.

UNITARIAN FESTIVAL. The annual festival of the Unitarian society of this city was held last evening, and was attended by a large number of members of the society and Sunday school and their friends. A bountiful and substantial supper was provided on the great tables extending the whole length of the hall, and the excellence of the viands was vouched for by the vigor with which old and young attacked them. An "orchestra" of some fifty children, armed with all sorts of musical" instruments from a comb to a bass drum, and led *a la* Strauss by Master Hamlin, introduced some novel effects never before heard on the City Hall stage, and fairly carried the house by storm by their comic performance. Several other novelties were introduced, and about the middle of the evening, all who desired had an opportunity of joining in a social dance, music for which was furnished by Andrews' quadrille band. The festival was in every way a success.

MAINE POULTRY ASSOCIATION. Our readers will see by the announcement in another column, that the first exhibition of the Maine Poultry Association will be held in Portland on the 13th, 14th, 15th and 16th of the month. Over $3,000 in premiums are offered by the society, besides a list of special premiums, offered by individuals, which fills a column in the *Maine Farmer*. To ensure impartiality and justice in the awards, the judging committee will be composed of experts from out of the State, and fowls will be judged according to the standard of excellence and not as compared with other specimens on exhibition. The number of entries will be very large, from all parts of the State, and the exhibition will without doubt be one of the most successful ever held in New England. All entries should be made upon blanks furnished by the Association, which may be obtained of Albert Noyes, Esq., of this city, President. The entrance fee for each coop or specimen for competition for exhibition will be $1; excepting pigeons, birds, rabbits and minor pets, which will be 50 cents. All over five coops or specimens by one exhibitor free. Entrance fee to accompany entry, and all entries to be made to W. P. Atherton, Secretary, Hallowell, previous to Jan. 10. Arrangements have been made with the Railroad and Express Companies entering Portland, for transporting stock and passengers at one-half fare.

The shipments of coal from the vicinity of Sidney, C. B., the past season, were about half a million of tons. The prices obtained were a little higher than those of the previous year, and still higher prices and larger exports are anticipated for next season.

When Congress reassembles, Monday next, it will have before it for consideration 1068 bills. Of this number, 300 were introduced in the Senate, and 768 in the House. Forty-seven bills relate to public buildings in different parts of the country.

The Court of Sessions, in session at Trenton, N. J., Monday refused to commute the sentence of Mechella, the murderer of U. S. Marshal Stephenson in Jersey City, and he will be hanged January 9th next.

NEW MAGAZINES.

THE OVERLAND MONTHLY for January, 1874. The twelfth volume of the OVERLAND begins with a brilliant and unusually varied number. There are seventeen contributions to the body of the magazine, and eighteen different topics in the editorial departments.

The leading articles—Stony Bar Store, and its customers, by Prentice Mulford, is a fine photograph of an old-time mining-camp, and its characters are sketched from life with much dry humor. Poetical Self-mutilation, by S. M. Quincy, is a just criticism upon the changes, not for the better, which popular poets sometimes make in the text of poems long familiar. Prof. George Davidson, of the U. S. Coast Survey, contributes a valuable paper—Abrasions of the North-western Coast —which describes the remarkable table land, or mesa formations along the Pacific Coast, and attributes them to glacial agency, which he suggests may also have influenced the distribution of the gold drift. The other portions of the number are worthy of a careful reading. $4 per annum. John H. Carmany & Co., publishers, San Francisco.

THE ALDINE. The January number of this excellent magazine is replete with beautiful illustrations and pleasing literature which cannot fail of receiving a hearty appreciation from the reading public. The full page illustrations consist, first of an exquisite tint, a snow scene, by Thomas Moran, of New Year's morning in England. The drawing of the trees is excellent, while the snow effects are true to nature.

A HAPPY HOUR OF WORSHIP.

Well, wife, I've found the church I want! I worshipped there to day;
It made me think of good old times, before my hairs were gray.
The ancient house was fixed up more than they were years ago;
But there it is, which I went in it, wasn't built for show.

The section of [illegible] near me [illegible]
[illegible] I moved inside it was as old-fashioned inside.
It made me [illegible] Christian, for he led me boldly through
The forgiveness of sins creed I used to hear a little while ago.

I wish you'd heard the singin'—it had the old-time ring,
The preacher said with trumpet voice, "Let all the people sing."
The tune was "Coronation," and the music upward rolled,
Until I thought I heard the angels striking all their harps of gold.

My declining seemed to melt away, my spirit caught the theme,
And only feeble, trembling voice with that me'o mingle might.
As I sing, as many [illegible] days, I felt angels present be
Bear forth the royal diadem, and crown Him Lord of all.

Then you, wife, I felt me good to sing that hymn of praise;
I think some wrecked mariner who gave a glimpse of shore
Can't express half to [illegible] the weather-beaten form,
And all other is the blessed port I'm ever from the storm.

Then you don't! Well I can't just tell all that the [illegible]
[illegible] was this, I know it wasn't read;
He had it at me to preach it, for the light-ning of his eye
Went [illegible] long from me to him, me passed in [illegible]

[illegible] in words flowery, [illegible] simple gospel truths
[illegible] of [illegible] like [illegible] of sinfulness,
The [illegible] of [illegible] for which hearts that [illegible]
[illegible] was [illegible] to Christ, and not to Creed
[illegible] in the [illegible] holiness to Goodness and do [illegible]
[illegible] the golden sermon I dream of the Christ
And [illegible] I cannot see well—I saw the falling tear
That [illegible] [illegible] as [illegible] on [illegible] very [illegible]

It [illegible] the garden to make [illegible] water that holy [illegible]
[illegible] lightly here and [illegible] of heaven from [illegible]
[illegible] happy [illegible]
Again I [illegible] for that sweet time when [illegible]
Shall meet with friends.
When [illegible] [illegible] [illegible] [illegible] [illegible]
[illegible] [illegible]

I hugely said I'd minister to the congregation too,
I doubt not I'll remember, beyond life's evening grey,
The happy hour of worship I that dodel church to-day.

WILL O' THE WISP

(Concluded.)

Early one morning, while the sun was asleep, Stine came into the cathedral where the doors were just open, and even the early-mass worshippers were not arrived. She had a basket of white flowers upon the step of the altar, and then Lawrence came beside her, and they waxed their vow of betrothal, and said good-by.

After that the days went on as usual at La Grue. The painters painted in their studio, and supped in their club room, and regretted the absent Lawrence, but yet commended him for running away from danger. The English lady had taken up her residence regularly at the inn. The landlord was hardly pleased to have her. He always eyed her suspiciously, having a fear that Stine's abroad Stine and not been altogether banished from her mind. In this, however, he was wrong. The poor, little wearied out lady had given in to Fate at last, telling herself that her faithful search had been in vain, that the child she had sought must be long since dead, that she needed repose, and might venture to subdue her fancy for employing herself in a sunny case of Stine. She came and went about the inn, sitting in her little lofty chamber, looking over at the chimes, exchanging [illegible] in the garden with Monsieur and Madame, wandering about the quaint old town, peeping among ancient churches, endeavoring to talk a little French to the poor. She did this care-lessly, nothing caring to [illegible] [illegible] [illegible] [illegible]
